What is wrong with this survival surgery space?

Labels
Storage
Housekeeping

Housekeeping: Animal Prep

- Clean, uncluttered
- Sharps container
- Proximity to dedicated surgery area

Equipment/Records

- Calibration dates can be found in various locations on vaporizer.
- O2 flush reminders should be found on the induction boxes

Equipment/Storage

Records

- ▶ Autoclave verification logs
- ▶ Surgery Records
- ▶ Post –op monitoring
- ▶ Drug logs
- ▶ Weight/Food Restriction logs
- ▶ Sharpening a guillotine

Freezers and Refrigerators

- STORAGE APPROPRIATE?
- NEEDING DEFROSTING?
- ITEMS LABELED APPROPRIATELY?

Summary

- ▶ IACUC Inspections of Survival Surgery and Procedure Spaces is an effective tool in assuring UCSF's commitment to full compliance with all regulatory agencies.
- ▶ Allows open dialog and teachable moments between the inspection team and labs
- ▶ The inspection process is a powerful preventative as well corrective mechanism to address and maintain appropriate standards.

THANK YOU
